

979200 Assembly

Step1:
Connect the smaller cubby J to D board screwing the longer bolts C through smaller holes using allen key provided.

*To help assembling, press board against the cubby firmly.

Step2:
Screw 3 double headed bolts to 2 holes on the board using the short end, connect the three short posts G to the longer end of the bolts.

Step3:
Connect the bigger cubby K to the other ends of the three posts, using the short bolts A.

Step4:
Seal the bottom of the cubby using the four longer bolts C.

*To help assembling, press board against the cubby firmly.

Step5:
Connect the three posts to the three platforms using the double-headed bolts as pictured, with shorter thread screwed into platforms and longer thread into the posts.

Step6:
Attach the three finished platforms in step 5 to D board and cubby J using bolts A.

*Tighten all posts once more to complete assembling.
